

# king WHEELS

20TH ANNIVERSARY COLLECTION

[kingwheels.com.au](http://kingwheels.com.au)

**VOL 15**

Established in 2004, King Wheels is an Australian owned and operated wholesale and distribution company - producing high quality alloy and steel wheels engineered and designed with superior strength and durability.

Many of our alloy wheels are manufactured with Rotary Flow Forging technology, a process which compresses the wheel's outer band to provide a stronger and lighter product.

Look for the GVM + logo to view products tested at higher load ratings surpassing Australian and International standards for GVM upgraded vehicles.

With Australia's widest variety of powder coated steel wheel fitments and styles, King steel wheels are the number one choice for any serious off-roader. Covered by a Lifetime Structural Warranty and years of research and development in Australia's toughest conditions, you can rest assured when purchasing King Wheels you've made the right choice!

## Lifetime Structural Warranty

### Terms & Conditions

All alloy and steel wheels distributed by King Wheels Australia Pty Ltd are covered by a Lifetime structural warranty to the original purchaser.

All alloy and steel wheels have a one year warranty on all finishes to the original purchaser from the date of purchase invoice.

A copy of the original purchase invoice must be supplied with all wheels returned for warranty inspection. Any wheel which does not qualify for warranty will be returned.

Freight returns and re-shipping will be at the customer's expense unless authorised by King Wheels Australia Pty Ltd.

King Wheels Australia Pty Ltd will not be liable for costs incurred regarding a warrantable product.

All King Wheels products will not be warrantable if used in off-road or motor sport applications.

Warranty will be void if any repairs or modifications are made to the original King Wheels product or resulting from accident damage, negligence or misuse.

Warranty on wheel finish will be deemed void if chemicals, abrasive cleaning products or high pressure water cleaners are used in the maintenance of the wheel due to adverse weather conditions, salt water, road chemicals or brake dust corrosion.

Warranty on decorative bolts and accessories will be deemed void if the original finish has been stripped or removed by the use of chemical cleaners, caused by pneumatic/battery tools or high pressure cleaners.

Wheels installed with incorrect tyre size, load rating or used with excessive vehicle loads will be deemed void of warranty.

Check legal fitments with all relevant state authorities before installing to any motor vehicle.

\* Photos are for illustration purposes only.  
Nuts, caps and decals are subject to change.

FLOW FORGED WHEELS

The Rotary Flow Forged Technology compresses the density of the aluminum molecular structure which allows for a significant increase in the structural strength of the wheel and a decrease in the overall weight of the wheel. The Flow Forging process results in a wheel that will provide a lower unsprung weight, improved performance and greater durability.

## Terra

White - Red & Black Pinstripe

Sizes Available

**CBL**  
COMPATIBLE

### CBL Technology

King centre bore locating rings perfectly fit between the wheel and vehicles hub making it easier to properly install the wheel and tyre combination. When a wheel is mounted correctly it reduces vibration and helps prevent taper elongation.

\* Nuts and caps are optional extras on all steel wheels.

## D-Locker

Satin Black - Zinc Bolts

\* Bolt Kits are optional extras.

**Sizes Available**

15x8 / 15x10 / 16x8 / 16x10 / 17x8 / 17x10
